

Zero Waste to Landfill Policy

Policy Overview & Purpose –

The purpose of this Zero Waste to Landfill / Waste Management Policy is to outline Tata Steel Colors Private Limited's commitment to minimising waste generation and promoting responsible waste management across its operations. The policy provides a structured framework to apply the waste hierarchy—prevention, reuse, recycling and responsible disposal—while supporting regulatory compliance, operational efficiency and alignment with sustainability expectations under BRSR, EcoVadis and the International Responsible Steel Production Standard.

Scope of Application –

The Zero Waste to Landfill Policy applies across all operations of Tata Steel Colors Private Limited and is applicable to employees, contractors and other personnel working on behalf of the Company.

Our Commitments

- Tata Steel Colors Private Limited is committed to the waste hierarchy by prioritizing prevention, minimisation, reuse, and recycling of materials, and ensuring responsible disposal. The company strives for Zero Waste to Landfill through circular-economy practices and continuous improvement in waste diversion.
- The company is committed to full compliance with all applicable waste-related laws, rules, permits, and authorisations, including hazardous-waste requirements. The company ensures responsible handling, treatment, and disposal of all wastes while meeting statutory obligations and maintaining the highest standards of environmental stewardship.
- Tata Steel Colors Private Limited is committed to segregating waste streams at source and ensuring accurate classification of hazardous and non-hazardous waste. The company promotes responsible handling, storage, and treatment practices to enable maximum reuse and recycling while supporting its Zero Waste to Landfill objectives.
- Tata Steel Colors Private Limited is committed to progressively reducing waste sent to landfill by adopting site-specific waste-reduction strategies, enhancing reuse and recycling opportunities, and continually improving performance to advance its long-term Zero Waste to Landfill goals without making absolute guarantees.
- Tata Steel Colors Private Limited is committed to systematically tracking waste generation, recycling, and disposal performance across all sites. The company will conduct periodic internal reviews and transparently report progress, supporting continuous improvement toward its Zero Waste to Landfill goals.
- Tata Steel Colors Private Limited assigns clear responsibilities for waste management across relevant functions and integrates waste-related objectives into ESG governance structures. Leadership accountability, ESG-linked KPIs, and robust oversight mechanisms ensure effective implementation, operational discipline, and continuous progress toward Zero Waste to Landfill goals.
